Profile Summary

Final-year Information Technology student and MERN Stack Developer with hands-on experience in building scalable full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in REST API development, authentication systems, and performance optimization. Smart India Hackathon 2025 Winner with proven ability to develop real-world solutions and deliver production-ready applications.

Technical Skills

Languages: JavaScript (ES6+), HTML5, CSS3

Frontend: React.js, Tailwind CSS, Responsive Design, Bootstrap

Backend: Node.js, Express.js, REST APIs, MVC Architecture

Database: MongoDB

Authentication: JWT, Firebase Authentication

Tools: Git, GitHub, Postman

Experience

ZN INFOTECH — MERN Stack Intern | Lucknow, India

Sep 2024 – Jan 2025

- Completed 5-month hands-on training in the MERN stack (MongoDB, Express.js, React.js, Node.js).
- Designed and developed responsive web applications with React.js and Node.js, implementing REST APIs and MongoDB database integration.
- Established authentication workflows and optimized API responses to improve application performance.

Projects

Mealzo — Cloud Kitchen Platform | MERN Stack Project | [Live](#)

 [Link](#)

- Engineered a full-stack cloud kitchen platform with separate customer and admin dashboards.
- Integrated Firebase Authentication with secure backend verification and RESTful APIs for user login, signup, and order processing.
- Integrated Cloudinary image uploads and optimized APIs with cart persistence, reducing order processing time by 40% while improving application performance.

Taskify MERN Stack Task Management Application | MERN Stack

 [Link](#)

- Created a task management web application supporting CRUD operations for 200+ tasks with user-specific data handling.
- Built a secure and responsive web interface using React (Vite) and Tailwind CSS by integrating JWT authentication with HTTP-only cookies, protected routing, smooth animations, and real-time toast notifications.

Omnimart E-Commerce | [Live](#)

 [Link](#)

- Developed a React-based E-Commerce Progressive Web App (PWA) delivering a fast, responsive, and mobile-friendly shopping experience with modular and reusable component architecture.
- Integrated Firebase Authentication (Google & Email/Password) to implement secure user login and personalized user sessions.
- Implemented client-side product search, advanced filtering, and a user-specific order dashboard, enabling instant UI updates and securely displaying purchase history and shipping details for each authenticated user.

Certifications

- SmartIndiaHackathon (SIH) 2025** – Winner (Government of India)
- Certified). Won Frontend Competition Certificate on Campus. Training
- Certificate in MERN Stack (MongoDB, Express.js, React.js, Node.js).

Education

Dr. A.P.J. Abdul Kalam Technical University

Bachelor of Technology in Information Technology

SGPA: 7.8

Lucknow, Uttar Pradesh

2022-2026
